What is the Baby Collection?

Welcoming a new baby into the family is an exciting and emotional time. A baby's first year is full of rapid changes that mark the milestones in her/his growth. We created The Baby Collection to capture these moments in time and provide heirloom treasures that will be a joy to view for many years to come.

From the first time she lifts her head or sits up alone to those first real steps, we have designed the perfect collection of sessions and images that will capture those remarkable moments.

Because we know that our clients become our lifelong friends, we have created the entire package at a special price to introduce you to our work and the passion we have for our art. We hope that as we enjoy this first year together, you will consider us for all of your family's milestones.

What does my Baby membership pay for?

The Baby Collection includes a newborn, three-month, six-month, nine-month and one-year session. The one-year session includes a cake smash at no extra charge, we provide the cake. You will receive a 10x20 storyboard with one image from each session including the cake smash.

If you're a parent, then you know that babies change so much during their first year. Each phase of development is an opportunity to capture enduring memories and important milestones. Experience the joy of knowing you are capturing those unique and fleeting moments. Each Béb  Collection series includes the three sessions listed below.

The Beginning

Newborn to 3 months

What a joyous time to capture the essence of your new little one. Tiny fingers, toes, and all of the details that will be treasures for years to come. Your baby will be bare or in a diaper cover. This is also a great time to create wonderful relationship portraits with Mom and Dad as well.

The Moment

6 months

At six months your baby should be sitting up independently. These moments are full of giggles and smiles. Clothing should be kept simple. Diaper covers, bloomers, overalls and tiny tulle skirts are perfect for your baby's session.

The Freedom

1 year to 13 months

The best time to capture this session is when your baby is standing alone or taking a few steps. Now the fun really begins! Clothing can be simple or your baby can be all dressed up. Bring a few outfits, and we can choose the ones that will work best for your series. Don't forget to ask about our BIRTHDAY CLUB series.

Maternity

This amazing time of life is the perfect time to pamper yourself with a pregnancy session. The beautiful images created when you're awaiting your little one's arrival are breathtaking.

Clothing suggestions:

Please come prepared with several options for us to choose from. Black pants and denim jeans are great. We love pre-pregnancy jeans left unbuttoned as opposed to maternity jeans. Black and white camisoles are great (don't forget matching undergarments for both).

You will start by wearing your clothing for a traditional look, and then we may recommend different fabric wraps for a creative look. Many of our clients also chose to do full nudes. We can assure you that with proper lighting, the focus is only on your tummy, and all the other areas will be in shadow. These intimate portraits are a treasure and are a wonderful way to tell your family's story.

Register for the Bebe Collection and schedule your Associate maternity session for only \$45.

Family or Siblings

The first year is a great time to share the fun with siblings or to create your new family portrait. Each new life adds a new dimension to the family tree. A portrait will reflect these changes and will be a treasure to view.

Family session add-on fee: \$FREE

Please let us know prior to your arrival that you will be adding this option to your newborn or 3 months session.
